Referral Policy:

When a child enrolls at the center the parent completes an Ages and Stages screening form. After 45 days of attendance the child's teacher will repeat the Ages and Stages Questionnaire. This allows us to determine where each child is developmentally for planning an appropriate curriculum. It also gives us a more accurate rating of each child's strengths and weakness'. If there are any areas of significant delay we are able to communicate with the parents at an earlier stage to discuss a plan of action. Some of the services we may suggest are mental health consultations through Keystone Stars, a visit to the child's pediatrician and in more developed cases we may refer the parents to the Preschool Intervention Program or the School-Age based FLECS Program. Our main goal is to work together with the child, the parent's and any special services to provide the highest learning potential possible.

Your child's growth and development is measured with developmental assessments. If your child currently has an IEP/IFSP, it would be beneficial to share a copy of this plan with us so we can work together to ensure that the guidelines are put into practice. You do not have to provide this information if you do not wish to do so.

I am providing a copy of my child's IEP or IFSP

I am not providing a copy of my child's IEP or IFSP and/or this is not applicable to my child.
